---

Dear NSW Gov,

Reviewing our NSW Discrimination Act, these are our feedback and views:

- End the legal recognition of gender identity
- Ensure all laws and official records are based on biological sex
- With no exceptions protect women's right to single sex spaces, service, opportunities and sports.
- Return the word 'Woman' and 'Biological Sex' to the anti discrimination act.
- The impact of discrimination law in education as young as primary and secondary school on gender identity is unacceptable. This leads to medicalisation of youth. The medical scandal of our lifetime.
- A lot of the communications from NSWGov (example from DCS attached) are offensive to Women. The +, sistergirl and brotherboy are driven at their base by male sexual fetishes and sped along by cult brainwashing. These are powerful forces propelling this issue to unjustified prominence.

Regards, Eva
